

# Operational Report: Announced Allocation

## Dawson Valley WSS, Upper Dawson sub-scheme

Effective: 25 November 2024

|                                        | Abbreviation | Value  | Unit  | Remarks |
|----------------------------------------|--------------|--------|-------|---------|
| High Priority Announced Allocation     | AAh          | 100%   | %     |         |
| Medium A Priority Announced Allocation | AAma         | 40%    | %     |         |
| Medium Priority Announced Allocation   | AAm          | 20%    | %     |         |
| <b>Glebe Weir</b>                      |              |        |       |         |
| Elevation                              | EL           | 170.66 | m AHD |         |
| Current Volume                         | CV           | 17,706 | ML    |         |
| Surface Area                           | SA           | 542    | ha    |         |
| Storage Loss                           | SL           | 5,366  | ML    |         |
| Dead Storage Volume                    | DSV          | 430    | ML    |         |
| Useable Volume                         | UV           | 11,910 | ML    |         |
| <b>Gyranda Weir</b>                    |              |        |       |         |
| Elevation                              | EL           | 155.00 | m AHD |         |
| Current Volume                         | CV           | 9,292  | ML    |         |
| Surface Area                           | SA           | 253    | ha    |         |
| Storage Loss                           | SL           | 2,509  | ML    |         |
| Dead Storage Volume                    | DSV          | 2,120  | ML    |         |
| Useable Volume                         | UV           | 4,663  | ML    |         |
| <b>Theodore Weir</b>                   |              |        |       |         |
| Elevation                              | EL           | 133.54 | m AHD |         |
| Current Volume                         | CV           | 4,671  | ML    |         |
| Surface Area                           | SA           | 99     | ha    |         |
| Storage Loss                           | SL           | 978    | ML    |         |
| Dead Storage Volume                    | DSV          | 750    | ML    |         |
| Useable Volume                         | UV           | 2,944  | ML    |         |
| <b>Moura Offstream Storage</b>         |              |        |       |         |
| Elevation                              | EL           | 119.62 | m AHD |         |
| Current Volume                         | CV           | 296    | ML    |         |
| Surface Area                           | SA           | 19     | ha    |         |
| Storage Loss                           | SL           | 185    | ML    |         |
| Dead Storage Volume                    | DSV          | 140    | ML    |         |
| Useable Volume                         | UV           | 0      | ML    |         |
| <b>Moura Weir</b>                      |              |        |       |         |
| Elevation                              | EL           | 102.40 | m AHD |         |
| Current Volume                         | CV           | 4,041  | ML    |         |
| Surface Area                           | SA           | 107    | ha    |         |
| Storage Loss                           | SL           | 1,059  | ML    |         |
| Dead Storage Volume                    | DSV          | 599    | ML    |         |
| Useable Volume                         | UV           | 2,383  | ML    |         |

|                                     | Abbreviation | Value  | Unit | Remarks              |       |
|-------------------------------------|--------------|--------|------|----------------------|-------|
| Additional Parameters               |              |        |      |                      |       |
| High Priority Allocation            | HPA          | 4,581  | ML   |                      |       |
| Medium A Priority Allocation        | MAPA         | 19,276 | ML   |                      |       |
| Medium Priority Allocation          | MPA          | 29,519 | ML   |                      |       |
| Total Usable Volume                 | UV           | 21,900 | ML   |                      |       |
| Net Carryover Volume                | VIWY         | 2,901  | ML   | Carryover            | 5,209 |
|                                     |              |        |      | Carryover Diversions | 2,308 |
| Inflow Allowance                    | IN           | 1,555  | ML   |                      |       |
| Inflow of treated CSG               | INCSG        | 62     | ML   |                      |       |
